in prints, carbons, etchings, pastels, and oils, 50 cents to \$15.00.

INTER-ISLAND

(Continued From Page Nine)

Mr. Searle's long and faithful service and he will receive \$150 a month for life. We understand Mr. Searle will live in Honolulu.

In rickshaws to the floor, where it formed ghastly little pools. At last the ferocious assassin was separated from his victim before actual murder had been committed. He is now in jail awaiting the result of his blood-thirsty deed. His unfortunate victim is at Dr. Mori's Charity Hospital, and it is feared his wounds may prove fatal.

Kahului Notes.

At the semi-annual meeting of the Young Men's Club held last week, the following officers were elected: President, R. S. Gray; vice-president, E. L. Kellett; secretary, Waiakoa; treasurer, A. C. Ratray; board of managers, the above officers, together with A. H. Silva Jr., J. McGuire and M. W. Mitchell.

The Matthew Turner was towed out to sea early last Friday morning by the Leslie Baldwin.

The Honolulu arrived Saturday morning and departed for Kanihapi on Sunday afternoon. Monday morning the Mexican arrived for a week's stay. She is loading sugar, the first of the season, and expects to carry away about 6000 tons. Now that the sugar season is well under way, the harbor will be a busy place for the next few months.

The Abahui Koku o Nawaleha, or as it is popularly called, the Relief Society, held its monthly meeting in the Union Church. The new charter was read and adopted and officers were elected for the new year. There are more than 239 members on the roll of

membership.

Z. Jeremiah of the railroad has moved to Maliko gulch, that he might be near to the survey work of the railroad extension with which he is connected.

Church Dedication.

The concrete steps and walk are being built at the Union church this week. The furniture for the building is all here, two of the large windows arriving a few days ago. At the meeting of the trustees and standing committee held last Sunday evening, the date for the dedication was set for the 21st of January. A large number of Honolulu people have already signified their intention of coming for the opening of the new church.

Murderous Assault.

Last Saturday night a serious stabbing affair took place at the old mill camp near the bridge. A Japanese who had been discharged from the plantation brooded over his imaginary grievances and thinking it was his section boss, also a Japanese, who had caused his discharge, he went down to the man's house thirsting for revenge. He found the object of his wrath and fell upon him like a wild beast, slashing him viciously about the head and breast with a knife, evidently bent on killing him. The blood gushed forth from many terrible wounds and ran

Victim of Typhoid.

Maul News: We were sorry to learn of the death of young Kawakoa, the son of Hon. Kawakoa of Kaupo. He died of typhoid at Lamahala last week. We understand that several of the students took turns about nursing the poor boy day and night, and he finally succumbed to the dreaded disease. What seems a case of gross negligence on the part of the Lahaina physicians is that, instead of quarantining the rest of the boys after the case had been diagnosed, they were all let out to go to their different

homes throughout Maui. Hana received a few of these boys by the Claudine this week and should anything happen in other sections of Maui it will have to be laid at Lahaina's door.

Maul Library Association.

At a meeting held at the Alexander Settlement House on Tuesday evening last quite a large number were present to discuss plans for organizing a library association.

Rev. Rowland B. Dodge was appointed temporary chairman, and after perfecting an association, it was decided that the name should be the Maui Library Association.

It was decided to place the business of the association in the hands of a committee of seven. Mr. Dodge was elected chairman of this committee, with authority to appoint the other six. A great part of the evening was occupied in discussing the possibilities of the new library association, and there seems to be no doubt, judging by the expressions of those present, that much good will be accomplished.

Hana Notes.

A. A. Wilson and A. Nobel arrived by Claudine this morning with automobiles, mules and material to start in on the bridges throughout the district. Mr. Collier and his assistants are at present busy on the construction of forms for the various bridges.

The Claudine had a very big freight for Hana today and was detained several hours.

Gen. Calder is a new arrival. He comes to work for the Kaeleku Sugar Company as luna.

There is a Japanese show in town and they are giving nightly performances.

Lahaina Notes.

The scarlet fever epidemic is still in evidence, although no new cases have been heard of this week. Doctor Homer Hayes, who has been assisting

the local doctor in getting the disease under control, received a wireless on Tuesday, calling him back to his duties on Molokai.

Frank Stark, who is in charge of the Pioneer Mill Co. during Mr. Weinheimer's absence in Germany, is laid up with the dengue. He is improving steadily, however, and will soon be around again.

George S. Raymond, the School Inspector for Lahaina district, is reported to have been compelled to postpone his Molokai trip on account of sickness.

The Pioneer Mill Co. last month added to their staff August Fries, formerly chemist of Hawaiian Sugar Co. at Makaweli, Kauai. Mr. Fries is a late arrival from Germany, where he has been resting for some time after strenuous work in Formosa, showing the Japanese how to run a sugar mill. His present position will be superintendent in full charge of the Lahaina mill.

Miss A. Z. Hadley, formerly principal of the Lahaina Public School, was in Munich from last accounts. She expects to be in Rome during the Christmas vacation with her father.

Mr. and Mrs. A. N. Hayselden attended a recent fair in Mobile and had occasion to see aviator Nelson flying over Mobile Bay. Nelson is a pupil of the Wright brothers.

NEW RICE MILL.

The K. Yamamoto Rice Mill is the largest as well as the finest in the islands. All machinery is of the very latest pattern. The famous Tengu Rice is cleaned at this mill. With the large cleaning capacity they are able to handle considerable outside particular work which they guarantee.

Leave orders now for green Christmas trees. Henry May & Co., Ltd. Telephone 1271.

DAMAGES FOR SOUNDLESS PHONE

It is a serious thing for a lawyer not to be able to talk. In the particular case of George A. Davis the deprivation of conversational opportunities is worth at least \$5000, according to his own valuation, and he wants the Mutual Telephone Company to pay him that amount because his telephone has refused to go.

Davis yesterday filed suit against the telephone company in the amount mentioned, alleging in his complaint that since the automatic phone was placed in his house on November 4 he has been many times unable to talk through it, to his great damage and injury. What makes the injury rankle the more is that Davis has paid \$6 rent for his noiseless phone.

Leon Ames, whose batting average one season ran as high as .92, is the victim of the following:

Shortly after the big fire at the Polo grounds, which burned up all the bats of the Giants, Ames, knowing that he was going to pitch, sent a negro boy down to a sporting goods store for a new bat. He neglected to give the style of his stick.

"I want to get a bat for Mister Ames," declared the boy, addressing the clerk, with a feeling of importance.

"What weight and length do you want?" asked the clerk.

"I don't know, sir," replied the boy as he scratched his head.

"Didn't you get the model?" again asked the clerk. "I'll have to know the length and weight before I can get you a bat. What about it?"

The boy looked perplexed. "Well, sir," he finally decided, "I guess it don't make no particular difference, boss, it's fur a pitcher."

JUST A LITTLE EARLY

To talk about Christmas out of town is a little premature, but it is well to keep Haleiwa in mind. Unusual preparations are being made to entertain those who prefer a day away from

home to the bother of planning a dinner and to entertain company. It's rather difficult, too, to manage a golf links in the average yard of a city residence. Haleiwa affords the best there is and a tennis court that is all that could be desired by the most enthusiastic wielder of the racket. Keep Haleiwa in mind if you are planning to leave town.
